Brand New Book ***** Print on Demand *****.Excerpt from Lesson Plans for Teachers in Nature-Study Agriculture: Based Upon the Illinois State Course of Study Two years ago when a course in Nature Study Agriculture became a part of the new state course of study there arose on the part of teachers a demand for some special help in teaching this subject. To supply this need the Lesson Plans in Nature Study Agriculture were published. That these have proved of value is very evident. Both teachers and superintendents speak in the highest terms of their usefulness. The first edition is now exhausted and it seems wise to publish a second edition. The lessons have been carefully revised and a number that in the first edition were rather meager have been rewritten in full. The arrangement of the years has been changed to follow each other consecutively instead of previous plan of grouping into odd and even years. This will add to the efficiency of the book. The lessons are planned expressly for busy teachers and especially for those who have had little or no training in nature study and elementary agriculture. They include how to obtain material, what to have the children observe, how to report the observations, how to conduct simple experiments, etc. At the same time sufficient information is given with each lesson to enable the teacher to gain the fundamental facts that she should know in order to present the lesson successfully. Relation To The Children. - The book presupposes that the work in the schools will be real nature study, that the children will handle and observe real objects, will perform experiments, will work with their hands and think while they...
