

## Biology: Cycles of Life Teachers Edition (Hardback)

---

By -

Ags Classic Short Stories, United States, 2006. Hardback. Book Condition: New. 282 x 218 mm. Language: English . Brand New Book. This text explores patterns, along with ever-evolving diversity. First, the text puts the smallest unit of life--the cell--under a microscope. Students learn about the parts of cells, their chemistry, and how they function and create energy. Next, the text introduces more complex biological systems. It studies cellular reproduction, inheritance patterns, and genetics. Lastly, they examine how biological systems act upon each other in communities and ecosystems. Overall, this high-interest, low-readability text makes it easy for you to engage students who struggle with reading, language, or a learning disability. Lexile Level 850 Reading Level 3-4 Interest Level 6-12.

### Reviews

*Certainly, this is the greatest work by any author. It can be written in easy words and phrases rather than confusing. I am just happy to let you know that this is actually the greatest ebook we have studied inside my individual daily life and may be the greatest ebook for at any time.*

*An incredibly great book with perfect and lucid answers. Better than never, though I am quite late in starting reading this one. You will not sense monotony at whenever you want of the time (that's what catalogues are for relating to if you question me).*
