Brand New Book ***** Print on Demand *****.Excerpt from The Demonstration Schools Record, Being Contributions to the Study of Education, Vol. 1 It is intended to issue, at convenient intervals, successive numbers of a publication such as is here presented in order to acquaint subscribers and others interested in the study of Education, with the work of these two Demonstration Schools and with the nature of the investigations which centre round them. In this first number our chief concern is to show the variety of ways in which a Demonstration School can supply the needs of a University Department of Education, as concerned, firstly, with students preparing for their career as teachers, secondly, with lecturers and demonstrators, engaged, as in other University Departments, both in supervising students and in undertaking research into educational problems. This analogy with other University Departments is always present to our minds when planning the machinery by which a Demonstration School is controlled. Students of to-day, in contrast to fifty years ago, are being everywhere supplied with hospitals, laboratories, apparatus, libraries, field excursions to enable them to realise the full meaning of the ideas presented in lecture and in book; all departments of study, both in schools and universities where progress is really effective, are recognising more and more that the teacher is comparatively ineffective unless he and his students work together upon appropriate apparatus and material; the written and spoken word, of text-book and of lecture room, are merely symbols to interpret this material. All this is well understood as regards Medicine, Engineering, Chemistry, Law; it is not yet recognised so fully as regards Education. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books....
