Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.This book identifies a widespread conceptual vagueness in industry and education today over quality and finds that the Metaphysics of Quality of Robert M. Pirsig provides a valuable clarification. It situates Pirsig's solution both philosophically and in relation to the New Physics, simplifying and clarifying his terminology and expanding his moral hierarchy. The alternative philosophical legacy of Hermeticism is examined, focussing on the technology of the transformation of lower into higher quality, alchemy, recommended by key virtues of holism and amelioration. Alchemy is re-evaluated (and alchemical vanitas interrogated) and employed as a powerful paradigm for this transformation. This doctoral thesis and his Master's dissertation (which is published as Dreaming Anarchy: a Shut-Eye View of a Utopia) are discussed in his chapter, Strange Attractors: Myth, Dream, and Memory in Educational Methodology, in the International Handbook of Interpretation in Educational Research published by Springer, 2015. He has also published articles on political philosophy and WW1 remembrance in the online journal, Citizenship, Social and Economics Education. He has published...
