The returns of the several corporations are made, as required by law, for the year ending on the 30th day of June, 1897. These returns will be found in full in the appendix to this report, together with tables compiled therefrom, giving the more important statistics up to that date. As in previous years the general report covers the entire year from January 1st to December 31st, 1897. The general railroad business of the United States has shown an improvement over that of the previous year, and this improvement was largely in the last half of the year. The crops of cereals in the western and north-western States were the largest ever known, and the resources of the railroads have not been sufficient to provide speedy transmission of the same to tide-water. Nearly all of the large systems have shown a substantial advance in net earnings, and some roads that had previously passed their dividends have resumed their place among the dividend paying roads.
